

Chamber Leads Club Application

Developing Business through Referrals

The Chamber Leads Club is formed by local business owners and employees, with no more than one member from any given industry. The goal of the group is to help generate business leads for others within your group.

The system is ideal for small businesses working to establish themselves and for businesses looking to expand and generate new contacts. Businesses are always in need of collaboration and support services. The Leads Club helps identify fellow Gilbert Chamber of Commerce members that might be interested in working together.

The Leads Club meets every Tuesday morning from 7:30 am to 8:30 am.

To succeed in the Leads Club, you must be a positive and supportive member of the Leads Club and a member in good standing at the Business Level or above with the Gilbert Chamber of Commerce. There is no cost to be in the Leads Club, it's included in your Business Level membership!
